What Is Demanded of Vermenters. In the following tabulation of sales of War Savings and Thrift Stamps we have shown the amount of stamps each town, city, county and the entire state must purchase before December 81st to go "over the top." Please note that the figures herewith given are made

up on a maturity value basis.
In some communities, judging from the sales made and the pledges received, it will be an easy matter to attain the goal of \$20.00 per capita set for us by the Government. There are many other towns, however, where the utmost of hard and unremitting labor on the part of the town committees will be necessary to accomplish their task. In our next report we shall resume the publication of comparative per capita sales on a cash basis as heretofore.
